

J. A. J. Halford the Engineer appointed
by the Municipality of the Township
of Sandwich East in the County of Essex
under the provisions of "The Ditches and
Water Courses Act of 1883" was called
by the requisition of Lawrence Lyons
owner of the South West quarter of Lot
13 in the 6th Concession of the said
Township of East Sandwich filed
with the Clerk of the said Municipality
representing "That he requires
a drain on said Lot and that it
would be necessary to continue
the drain across certain mentioned
lots which would be benefited by the
said drain;

I attended at the Time
and place mentioned in said
requisition and having
examined the locality and heard
the parties and their witnesses
find;

That the South West quarter
of said Lot 13 in the 6th Concession
of Sandwich East requires the
drain mentioned in said requisition
and such a drain as I have described
in the annexed plans and Specifications
to enable the proper cultivation
and use of said Land;

That in order to
reach a proper outlet the said drain will
require to be extended across the front of
the North West part of said Lot 13 owned by
Thomas Lyons;

across the front of Lots
14, 15 & 16 in the said 6th Concession
Owned

owned by John Hanly;

That the West part of Lot 12 in the Said 6th Concession owned by John Lyons will be largely benefited by Said drain;

That the Road between the 5th and 6th concessions and part of the Road in Rear of the 3rd Concession will be greatly benefited by Said drain

And I AWARD:

That John Lyons shall open up and Maintain the Drain from Stake "O" North 25 rods to a point 5 rods North of Stake "I";

That Lawrence Lyons shall open up and Maintain the drain from a point 5 rods North of Stake I North 55 rods to Stake "H";

That Thomas Lyons shall open up and Maintain the drain from Stake "H" North 55 rods to a point 15 rods North of Stake "G";

That John Hanly shall open up and Maintain the drain from ~~Stake~~ a point 15 rods North of Stake "G" North 165 rods to Stake 15; and from Stake "23" East 47 rods to Stake 25;

That the Township of Sandwich East shall open up and Maintain the drain from Stake 15 North and East 160 rods to Stake 23;

That this drain and all work in connection therewith shall be made and Maintained in accordance with the Annexed Plans & Specifications

That each

John Lyons

Lawrence Lyons

Thomas Lyons

John Hanly

Lawrence

party to this Award shall have his portion
of the work fully made and completed
before the first day of November A.D.
1888;

That any costs attendant upon the
examination and the making of this award
and the annexed plans are \$15.00 of
which each party to the award shall
pay \$3.50

That the clerk of the township
shall be paid \$2.50 of which each party to
this award shall pay fifty cents,

Dated this 24th day
of September A.D. 1888
A. J. Halford.

Witness
John Dugal

Township Engineer

Specifications
of
Lyons Drain Sandwich East

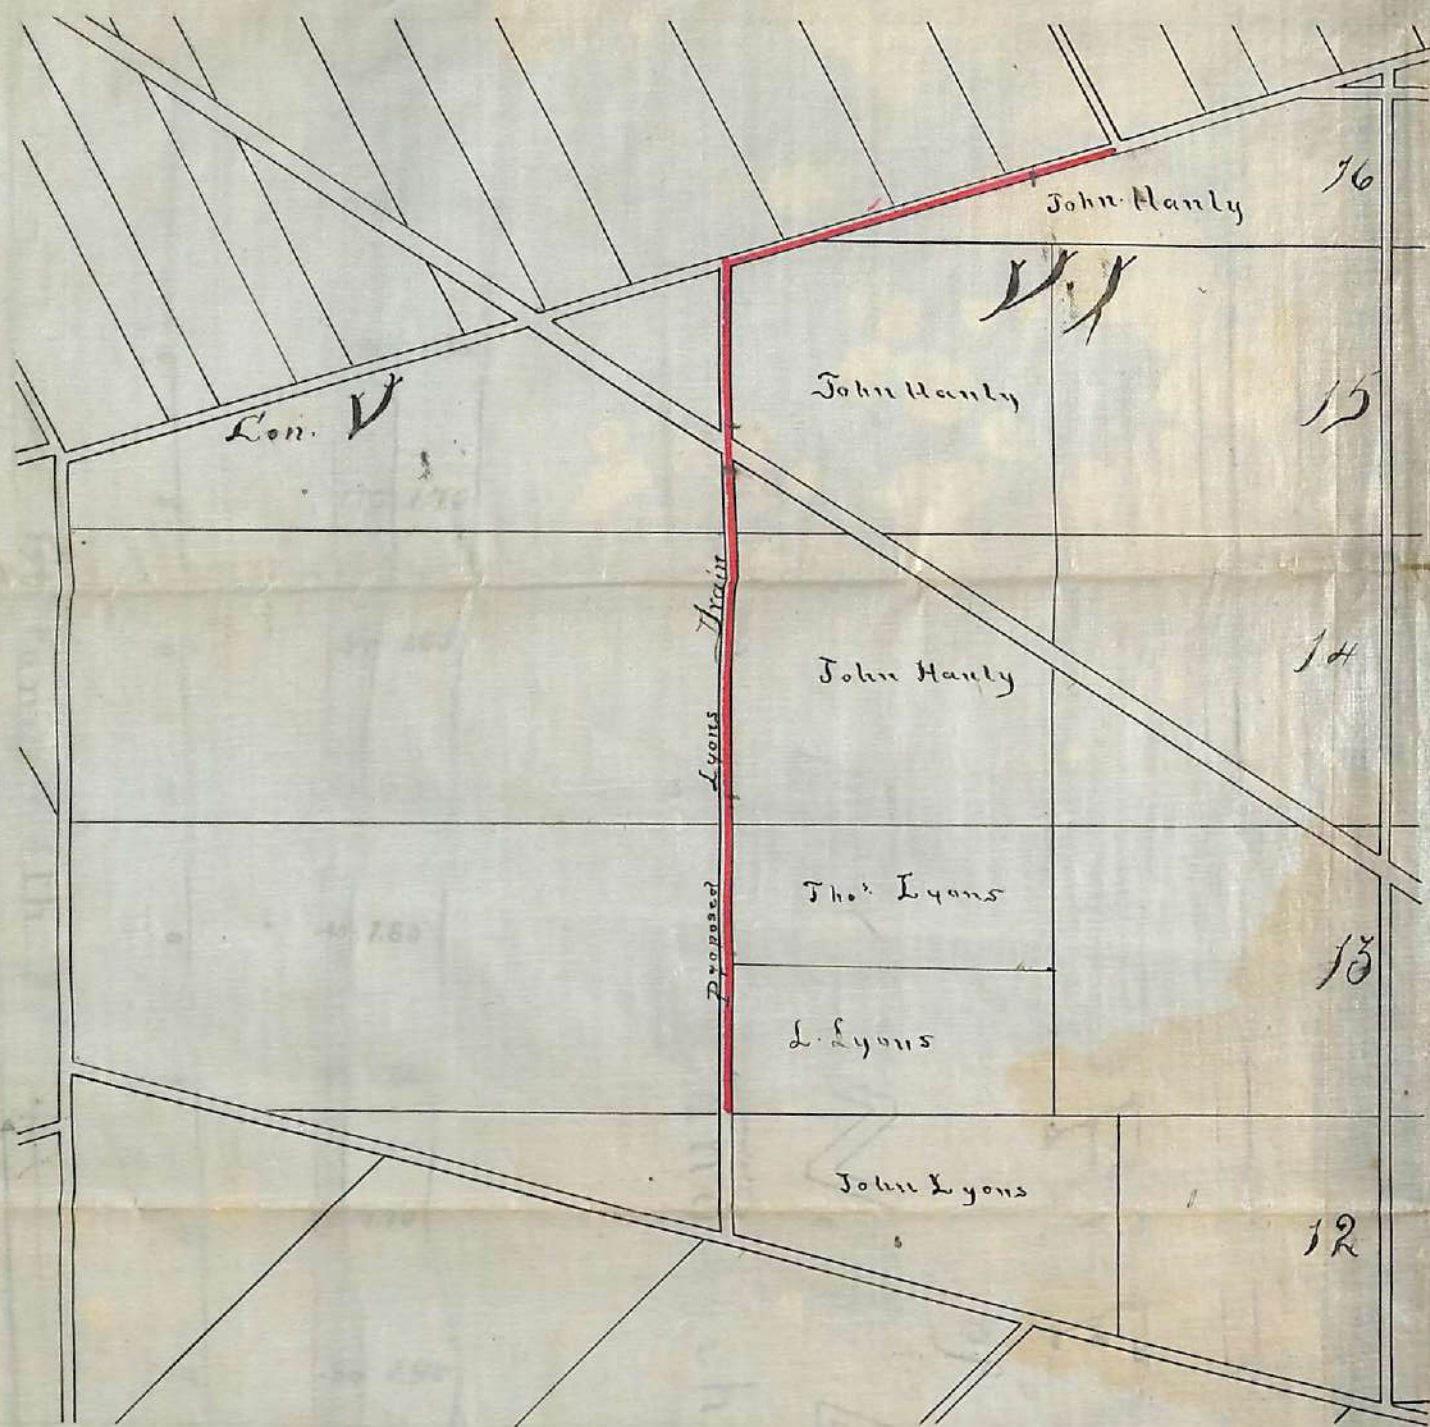

This drain begins one rod South of the South line of Lot 13 in the sixth Concession and extends North on the East side of the Road between Concessions 5 & 6, with the West side of the drain fourteen feet from the centre of the road allowance, to the third Concession road, thence Eastward along the South side of last mentioned road to the Walker road preserving the same distance from the road's centre throughout.

By the side of the drain stakes have been placed every twenty rods and at such stakes the drain must be sunk to the depth indicated by the annexed profile, preserving a uniform fall from stake to stake throughout.

The bottom of the drain shall be three feet wide throughout with the side next the road sloping one and one half feet to each and every foot of depth and the other side sloping one foot to every foot of depth.

The excavated earth must be cast upon the road bed in such a manner as to leave a clear berm of six feet next the ditch and be spread over a breadth of sixteen feet having a slightly rounded but even surface. Except upon that portion of the road upon which gravel has been placed upon such portion no earth shall be cast but thrown to the other or East side of the drain and spread leaving a clear berm of three feet.
