

Old Pelton tower at the Michigan Central and Chesapeake and Ohio railway will be done with very shortly. No more switches will be thrown from the Pelton siding and present operators will be either transferred or out of a job. All car loadings now from this area will likely be billed from the Walkerville junction.

People doing business with agents Ted Wright and "Wilf" Bondy and others will miss their friendly exchange over the phone.

Here at the Oldcastle Co-Op Ted Wright and Wilf Bondy will be specially missed with their friendly business-like manner.

No doubt late Pelton Tower men who have passed on, like Fred Moore and Will Washbrook, natives of the district, will return to haunt the progress makers of to-day. Dec. 3-4
