

ROSELAND PUBLIC SCHOOL - S.S.NO. 10, SANDWICH EAST.

ROSELAND PUBLIC SCHOOL IS A BORDER LINE SCHOOL, situated on Cabana Rd. East in Sandwich East Twp. with the township of Sandwich South across the road on the other side. As many of our township's students attend this school, a brief history is in order.

It was first a two-room school it seemed away out in the country when it was built. It has had two additions built on to it since World War II and these were built by the Robt. Fawcett Builders of here. There were many graduates through the years out of our township.

June 28th, 1968 - The caption with the pictures of the retiree proclaimed the "GONE FISHING SIGN would be hung on the Principal's door at Roseland Public School today. The Principal, Mrs. Olive Marcoux would be going fishing, getting back to her golf game and devoting a bit more time to husband and home than she has done all through the 41 years of teaching in Roseland. She was Olive LePain before her marriage.

After taking over the school when it was a small two-room affair and watching it grow to its present size of 17 classrooms, library and gymnasium in a new school building, Mrs. Marcoux is retiring. Her husband also was retiring on this same day from Ford of Canada, Ltd. Stanley Hayes would be replacing Mrs. Marcoux but the first principal will not be forgotten. She was being honoured at her favorite spot today at Roseland Public School, by the community, students and past graduates.
