No. 1505 P.R.

Chatham, January 24 1799 -

Sir

Enclosed I send you a Plan of the Lands I have located to Mr. John Cornwell - his wife & Mr. Richard Cornwell - You will please to observe the Marsh comprehended within the dotted lines. Mr. Cornwell did not choose to have located to him, as the most of the Inhabitants in front, cut their hay on it - The 2nd Concession I have not run, as Mr. Thomas Smith has run the dotted Line, N: 87° E(?) allowing the Variation; Yet I imagine it will be necessary to have it run East, by the needle, to make it agree with the other lines of the Township - There is two Families settled on the Reserve. Quick has made a Considerable Improvement and has a wife and fourteen Children, who have been all prisoners with the Indians a number of years - They settled three years past, naked in a manner, supposing it to be in the rear of Lots No. 71 & 72; the man is much discouraged - he bears a good Character in the neighbourhood & is industrious -

M^cCormack went on last Spring; he has about four or five acres cleared -

Mr. John Cornwell has had two lots located to him previous to enclosed - No. 13 1st Con. Camden

97	"	Colchester supposed	}	400
----	---	------------------------	---	-----

Chatham Jan 24, 1799

Sir,

I neglected to mention that 7 or 8 acres of John Quick's Improvement falls on the land surveyed to Mr. Cornwall - John Quick informs me, that he was advised by Mr. Selby & Capt. Elliott to settle himself upon any vacant land, having lodged with me a recommendation from Capt. Elliott for a grant of 200 acres, in the winter 1795 - thinking himself secure in any improvement he might make.

No. 44

Sandwich 27th June 1805

Gentlemen,

From the 16th of April the day I set out on the Survey to the 3rd of June when I returned Home I had not three successive days of good weather. The party fell sick one after another & at last the Chain-men. I had, therefore no alternative but to quit the Survey until a more proper Season. I however transmit Plans of what had been done & also your plans of guidance to enable you to make descriptions for those who have paid the Patent fees.

Altho' circumstances obliged me to deviate from the Plans, yet I hope it will meet with your approbation. In the year 1788 some lines were run in Colchester and Gosfield in order to locate the disbanded troops and Loyalists by order of Major Close then Commandant, upon which there are claims now existing by Certificates of Commandments & Improvements, and to satisfy those claims & in consequence of a Letter from Capt. Elliott expressing His Excellency's Wish in that respect (an Extract is sent herewith) I laid off twelve lotts in the Gore - No. 9 to 20.

The Line B in Gosfield is another Line of Major Close upon which there is some Settlers & to save them from being disturbed I would recommend the Front

Chewitt & Ridout Esquires
S. G. O.

(new page)

Concessions of Gosfield be divided into North & South Sections - allowing those who possess the front lots their respective Sections provided other Claims & Improvements may not interfere, Ketchisides is also settled upon the Same line produced Easterly & if the Plan of guidance had been strictly followed he must have lost the most valuable part of his Improvements - But knowing the old Plan to be erroneous & that you have been deceived thereby made me less scrupulous to deviate from it.

My Field notes and Journal I shall not send until the two Townships are completed, except you may order this

Six sheets Imp. Paper - Quarter Hundred Quils.

Four memorandum books & four pencils I received.

If the Lots No. 9 to 20 in Colchester Gore be approved of the Lines A B will have to be run from the Lake to 2nd Con. to ascertain the exact dimensions of 11 & 20. No 1 in the Gore upon which you placed the name John Cornwall I am apprehensive is the property of John Quick; and I think there may be an order of Council to that effect, and also an order of Survey to Mr Iredell. In faith of which it is now marked & bound for Quick, until otherwise instructed.

(No. 44 continued)

The public transactions of the Department have no immediate concern with Foreign news: However being so near to us & when B - Subjects are chief sufferers I cannot forbear mentioning that on the 11 inst. I saw the ancient(?) Town of Detroit in Three Hours & a Half consumed to ashes & not one Buildings remain but a Blockhouse in stone.

NB If you shall not want
the Plans you may
send them back any time
before the Townships are
completed.

I am
Gentlemen
Your most obedient &
very humble Servant

N.B. Settled on this Lot about six years ago - Mistook it for part of No. 1 in Mersea - His Improvements are valued at 1000 Dols - Such of the above as have no Grants, are to forward their Petitions, & pay the Fees to Capt. Elliott their representative.

m s -

The following letter was written by the surveyor Thomas Smith just after his survey of Colchester.

R.G. 1, A-I-1, Vol. 35, Surveyor's Letters, Originals, PAO

No. 48

Sandwich 29th Nov. 1805

Sir,

I have received your letters of the 15th of October & 2nd of November inclosing two seperate sketches shewing how the front concessions of Colchester & Gosfield clash with the 2nd.

John Cornwall & John Quick have notice in respect to their claims to No. 1 in Colchester Gore & that "nothing will be done thereon until they go forward by themselves or attorneys". Also John Davies & Windal Weigly are noticed that Nos. 10 & 11 in 3rd Con: of Gosfield having been described to Thos McKee esquire, & that they must make application for other locations.

Cornwall came to me & said "that he is willing to accept of another lot in lieu of No. 1 in Colchester Gore seeing that Quick has very considerable improvements thereon". I would therefore recommend that another lot may be assigned to him.

The persons settled under Major Close shall have notice to bring forward their pretensions, & I shall use my best endeavor to arrange their locations in such a manner as to interfere as little as possible with Grants already made - I feel with gratitude the dis

(new page)

discretionary power & confidence you place in that respect. The sketches will be entered upon the Plans & returned by another opportunity.

The interior of Colchester & Gosfield being intersected by extensive Swamps and morases - some of them not passable - I am therefore waited for the Ice to bear in order to proceed to the completion of that Survey.

I have the Honer to be

Sir,

Your most obedient Servant

Sandwich 6th January 1806

Sir,

The inclosed copy of a letter dated S.G.O. 23rd Feb^y 1799 probably will determine the dispute between John Cornwall & John Quick about lot No 1 in Colchester Gore & save them the trouble of going to York to appear at the Board. - The matter however, must remain in suspense until your further instructions.

The Merchants of Sandwich are about collecting money to pay the expence of cutting a road from the town of Sandwich to the Township of Mersea & have made applications to me to blaze it the nearest distance the nature of the ground will admit: - However, I am much in doubt if it can be made practicable, for the Country in general is low & wet, & abounding in extensive marshes & swamps.

I am Sir,

Your most obedient &
most humble Servant

Limit between Romney & Mersea
Monday, 26th August 1816 -

Sir,

I have the Honor to inform you that I have explored the ground through the Western Division of Romney and Mersea, to ascertain the most eligible site for Talbot Road to pass - The Land in the vicinage of the Two Creeks, and their Branches, which are near Mersea, is very wet and Swampy near the Lake - The Branches of the Two Creeks are very wide and full of deep dead Water, - They would be exceedingly difficult and expensive to Bridge - In short the nature of the Ground requires the Road to intersect the Limit between Romney and Mersea a considerable distance from the Shore of the Lake from which intersection it will be impossible to lay the Road Westerly through Mersea upon Ground on which it will be practicable

To Thomas Talbot Esquire
etc. etc. etc.
Port Talbot

(new page)

to make a good Road, without interfering with the Blocks of Crown and Clergy Reserves - Indeed I have examined all through Mersea, in rear of the Swamps and Marshes of Point Pele, & find that Hazle piloted me through the Reserves when I was exploring for the road in 1812.

The Intersections which I had the Honor to receive for the Survey of Talbot Road through the Western District, placed me under your directions, - I am therefore to request that you will advise me on the subject by the bearer -

Mahlon Burwell to Magistrates of the Western District
Chairman of the Quarter Quarter Sessions
Sessions, London District

Port Talbot, 30 Sept. 1830

Gentlemen,

Having lately made a tour through the greater part of the Settlements already made and now forming in your District, I take the liberty, most respectfully, of submitting to your consideration such ideas as occurred to me on that route, in regard to the improvement of the various roads by which your District is intersected and for which object the Funds at your disposal, arising from the Sheriff's sales of the lands of absentees, as non-residents, afford very considerable means.

..... The road through Romney needs considerable of improvement, and I think it would be well to have it removed a little inland in the Western Division of that Township, to avoid the frequent breaking of the Lake Bank, and be accommodated by a small gravelly ridge a few chains from the shore - the greatest improvements are wanted where the granted lands are situated and I should hope that the monies arising from them by means of the assessment law - together with what has been granted by the Legislature will make them tolerably good.

In the Eastern part of Mersea, the road requires all the assistance you can afford towards its improvements - the Western part is very tolerable. - In front of Gosfield and Colchester it would be well to have the road laid inland, say 20 or 30 chains passing through the several farms, and I have no doubts but such a measure might be effected with the common consent of the inhabitants - should this take place the Statute labor, if well applied would be equal to its formation, and keeping it permanently good.

The assessment law has produced nearly £200 for Gosfield, and if £100 of this sum were properly expended in improving Talbot Road through that township a great point would be gained in opening the route direct across the Country to the Town of Sandwich.

(Burwell goes on to comment favourably on the new drainage ditch in the rear of the town of Sandwich and the use made of it by settlers to the east.)

Introduction

For eight years local government was exercised by District Councils which began operating 1st January, 1842 (4 & 5 Victoria, C 10). The Municipal Act of 1849 (12 Victoria, c. 78) abolished districts and government by District Councils, and on 1st January, 1850, they were superceded by County Councils.

The District Council met regularly in four sessions per year.

Ms205(7), Municipal Records Western District, PAO

This microfilm was made of records of the Fort Malden Museum, Amherstburg, probably by the curator there, David Botsford, prior to their transfer to the PAO. They are in no particular order and are poorly catalogued. The early assessment records were taken out by archivists at the PAO and photographed as Ms390. Ms205 comprises 12 rolls of microfilm.

p. 5430

George Middleton recommended by justices of the peace, Ralph Foster, Theodore Malott and Alexander Stockwell to open a tavern in Mersea. The date must be sometime after 1838 since there is reference to Queen Victoria. "Six miles east of Leonard Wigles in Mersea and eighteen miles west of McDonalds in Tilbury, there being the nearest places of public entertainment. (Michael J. Fox in Romney having closed his house)".
